PROFESSIONAL EXPERIENCE

Full Stack Web Developer – Umar Zone Infotech (Remote)

06/2025 – 06/2026

Mumbai, India

- Developed 35+ responsive and production-ready web pages using React.js, Next.js, and reusable components. Built scalable UI architecture using SCSS, modular CSS, and component-based design patterns.
- Developed a WordPress-like CMS with reusable templates supporting multi-site and multi-tenant deployments. Worked on 9XGO, an OLX-like multi-service marketplace platform for freelancers, service providers, and businesses and other professionals.
- Developed user onboarding workflows, authentication, authorization, and customized website provisioning features.
- Built newsletter and email notification functionalities to improve user engagement.
- Integrated REST APIs and implemented secure payment-based website activation workflows.
- Implemented performance optimizations using lazy loading, code splitting, and efficient API handling.
- Developed frontend features using React.js and Next.js in a microservices-based architecture, integrating REST APIs from multiple backend services.
- Used Git and GitHub for version control, code reviews, and release management.

Web Developer, Mindfull (On-site), Contract

04/2025 – 05/2025

pune, India

- Developed the The Butterfly real estate website end-to-end on the frontend side, converting Figma designs into pixel-perfect, responsive pages, integrating APIs & SEO Optimization.
- Collaborated with designers and deployment teams to successfully launch the website.

Frontend Developer – gofloww (On-site)

02/2024 – 03/2025

Pune, India

- Developed HR, Accounting, and Mail modules using Vue.js, integrating REST APIs for efficient data handling and seamless user experiences. Built backend services and APIs using Python, enabling secure and scalable data processing and system integration.
- Improved application performance using lazy loading, code splitting, and Performance Optimization techniques. Developed real-time features such as attendance tracking, reporting, and analytics dashboards.
- Increased operational productivity by 75%, reduced errors by 65%, and improved overall system efficiency by 80%.

Frontend Developer (UI) - Banao Technologies (Remote), Contract

01/2023 – 01/2024

Bengaluru, India

- Developed responsive UI components using React.js, Angular, Tailwind CSS, and Bootstrap.
- Integrated REST APIs and implemented reusable frontend components.
- Optimized UI performance and ensured cross-browser compatibility.
